

THE OHIO OFFICE OF BUDGET AND MANAGEMENT
continues to support Governor DeWine and his senior team, and to work with all state agencies as Ohio state government responds the COVID-19 pandemic while maintaining critical services to all Ohioans.

Unfortunately, the pandemic has resulted in tax revenue shortfalls which OBM will closely monitor and manage. OBM has balanced fiscal year 2020 and is already updating revenue and spending forecasts to ensure a balanced fiscal year 2021.

OBM SENIOR STAFF MEMBERS ARE MANAGING COVID STIKE FORCES
related to Local Governments, State Personnel, and the Economy working with state and local leaders and with Governor DeWine’s Washington D.C. office to plan federal funding related to COVID-19 response.

OBM also established and announced the **Ohio Grants Partnership** to better support local government partners during the pandemic and into the future. The federal supplemental funding of various programs related to coronavirus response and relief created the ideal opportunity to institute this unique grants partnership office.

Finally, heeding Governor DeWine’s calling, OBM is **100 percent teleworking** and the financial operations of state government continue to operate smoothly.
